careers workshops
for doctors in training

One of the top challenges facing doctors-in-training is choosing and securing a specialty training place, determined by a competitive interview process requiring careful preparation.

Join us at the AMA (ACT) Careers and Interview Skills Workshops where you will learn how to create a memorable CV and make a difference at your next job or college interview. The workshops will feature break out sessions with local specialists who can give you the knowledge you need, mock interview panels, and informative Q&A sessions with experienced college members.
