

I would like to nominate for the position of Chair of AMA Council.

During my extensive experience on AMA Council, I have been impressed by the ability of the Chair to manage the general business of Council as well addressing important themes and issues as they arise via visiting experts to inform Council directly as well as workshops. I would certainly aim to continue and potentially expand this process as the new Chair. I have extensive past experience in Chairing committees in the RANZCP ( Aboriginal and Torres Strait Islander Mental Health Committee and Board of Professional and Community Relations), the AMA (President of the NT Branch) and the NGO sector (Forster Foundation for Substance Abuse Rehabilitation).

Sincerely A/ Prof Robert Parker
