RE: FLUORIDATION IN THE FRASER COAST'S WATER SUPPLY

Thank you for your letter to Fraser Coast Regional Council's Mayor George Seymour on 6 November 2024 regarding fluoridation in water supplies across the Fraser Coast region. The Mayor has referred your letter to me for response.

In 2013 the Queensland government amendment to the *Water Fluoridation Act 2008* provided local government with the power to decide whether to add fluoride to their water supply. At its Ordinary meeting on 20 February 2013 Council resolved to cease adding fluoride to the Fraser Coast drinking water supply.

Yours faithfully,

[REDACTED]
