Dear Miriah

FLUORIDE

Thank you for your email dated 6 November 2024 in relation to fluoride in drinking water within City of Moreton Bay.

I am advised that City of Moreton Bay's water supply is managed by Seqwater (bulk water supplier) and Unitywater (water provider). Together, these agencies are responsible for ensuring a safe water supply which meets minimum requirements set under the *Public Health Act 2005*.

I understand that most of South-East Queensland share a common water supply delivered by the SEQ Water Grid. Council has previously investigated this matter, and it was apparent that without uniform agreement across all South-East Queensland Councils, the removal of fluoride would be cost prohibitive. Further to this, I understand that City of Moreton Bay has no intention of advocating for the removal of fluoride.

Should you wish to raise concerns in relation to fluoridation of drinking water, you may do so by contacting Unitywater on 1300 086 489, or Seqwater on 1300 737 928.

Yours sincerely

[REDACTED]

PETER FLANNERY

Mayor
