MEDICAL WORKFORCE & TRAINING SUMMIT

Medical workforce perspective

Professor Brendan Murphy, Chair,
National Medical Training Advisory Network

Growth in medical practitioners compared to population

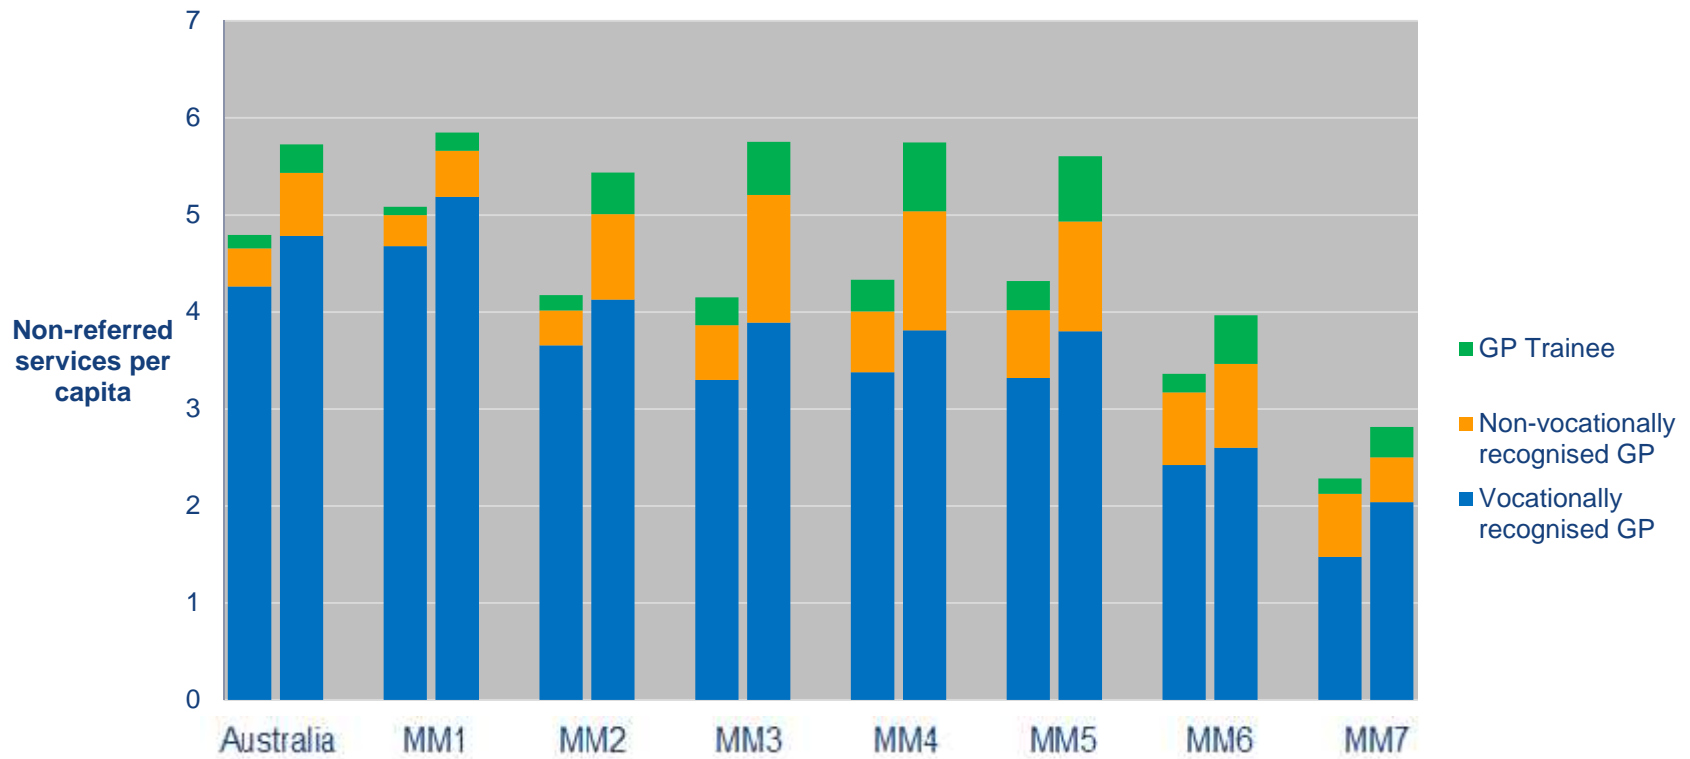

Context: GP FSE to estimated population

Financial Year	1 GP FSE to population	Growth in FSE (%)	Growth in population (%)
2006-07	1,254		
2007-08	1,209	6	2
2008-08	1,203	3	2
2009-10	1,182	4	2
2010-11	1,169	3	2
2011-12	1,156	3	1
2012-13	1,130	4	2
2013-14	1,080	6	2
2014-15	1,029	7	1
2015-16	994	5	1

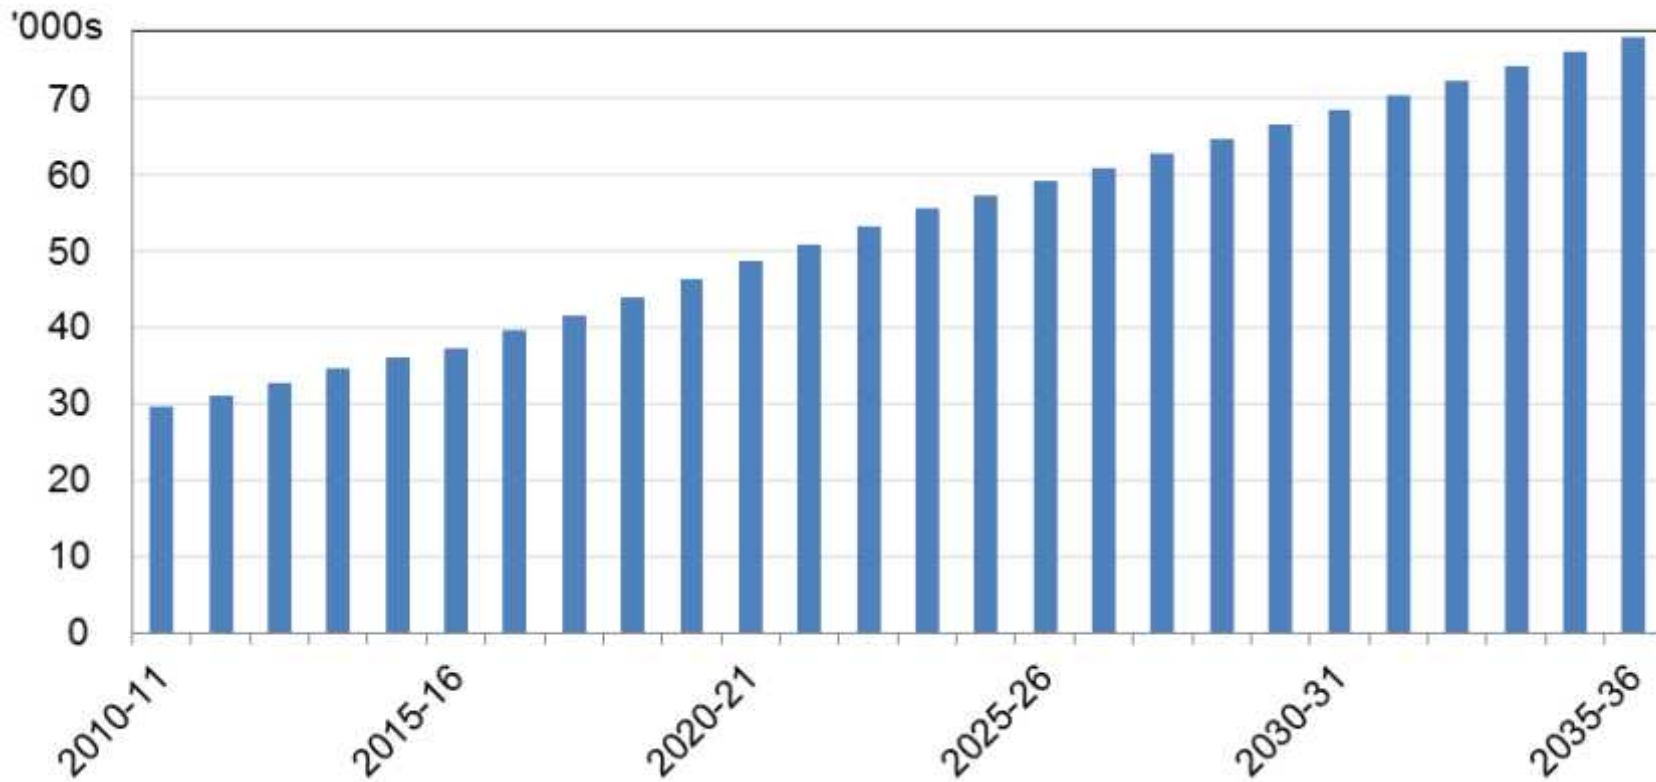

Context: Patient initiated services 2005 - 2015

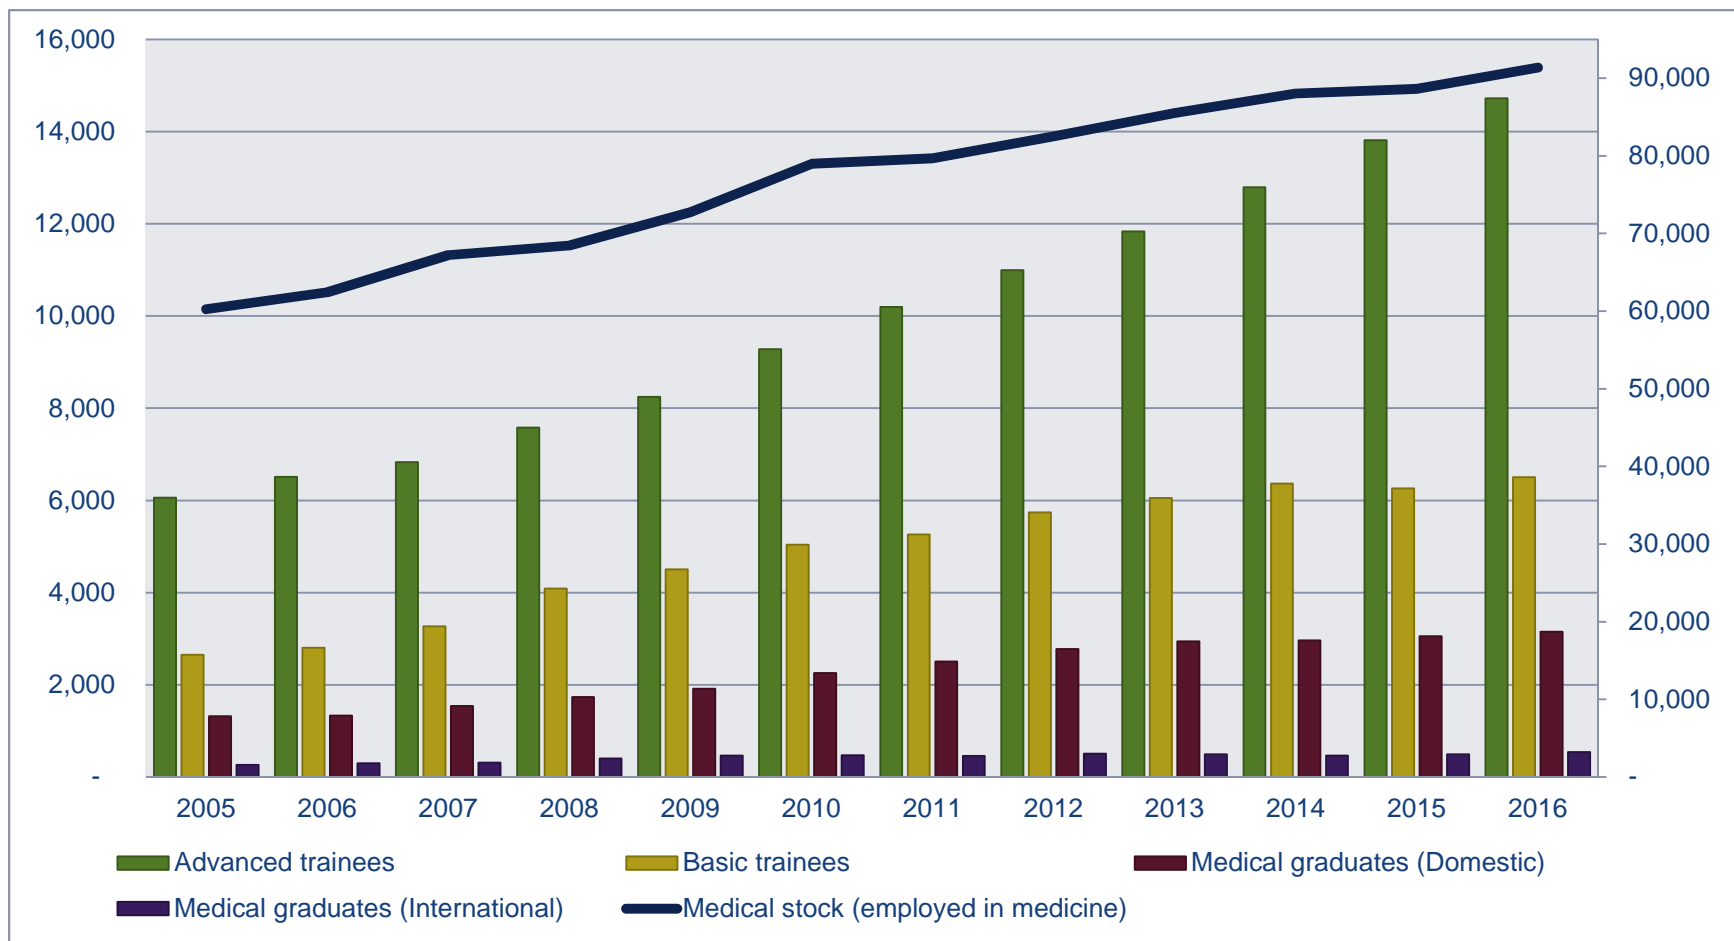

Context: Number of doctors delivering GP services (includes VR, non-VR and GP Trainees) to 2035-36

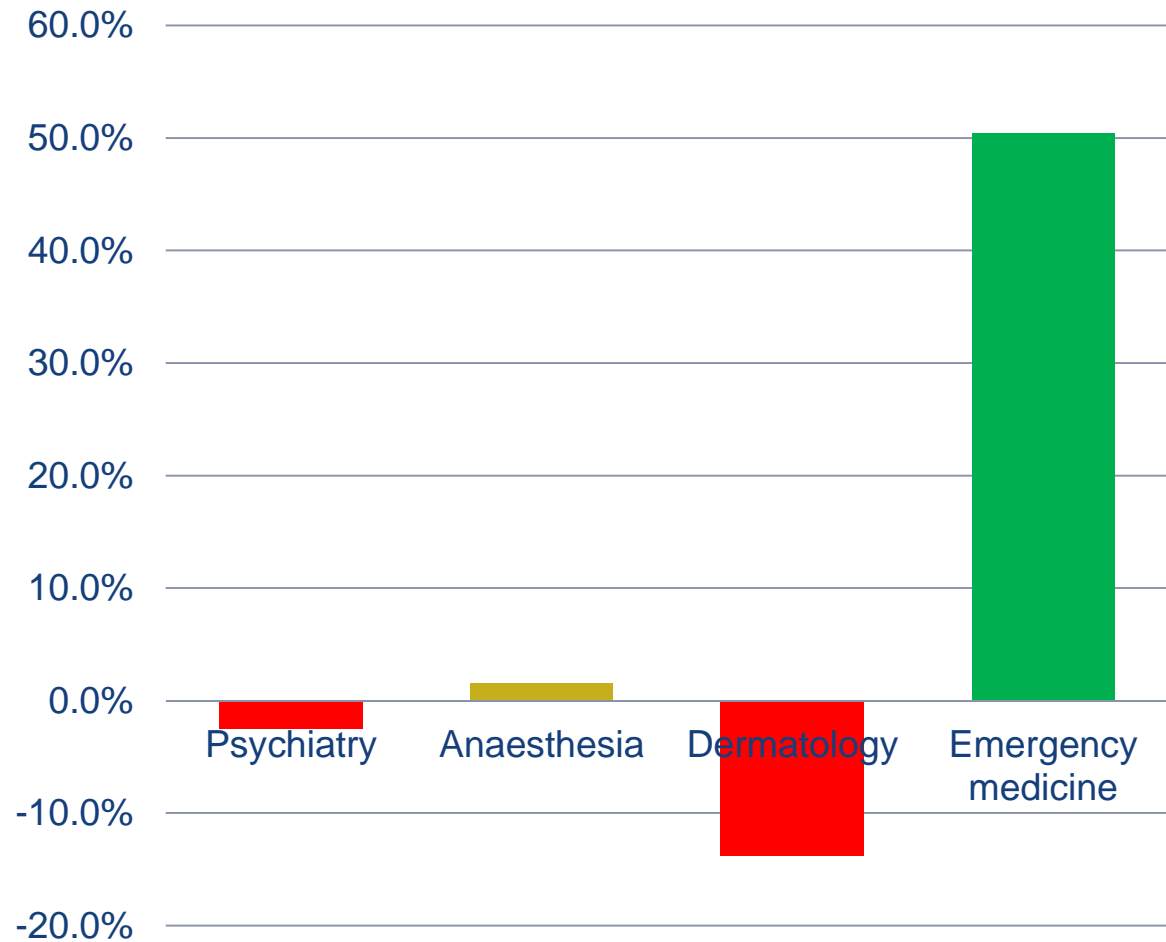

Health Workforce - stock & flow

AFHW Reports

- Despite the projected overall position of oversupply, imbalances within the medical specialty workforces currently exist and are projected to continue.
- These are the specialities that have been modelled individually.

Proportion of workforce position in relation to supply in 2030

The Pipeline

Doctors waiting for vocational training places “the bottleneck”
